

Information Security Policy

Bomchil is committed to the security of the information necessary within the processes and activities for the legal services it provides to its clients. Emphasizing the importance of maintaining the confidentiality, integrity, and availability of information, we commit to:

- Continuously improving the Information Security Management System through the participation and awareness of all our collaborators.
- Complying with the information security requirements identified within the Management System and updating them to the best practices and technologies to prevent security incidents.
- Selecting and maintaining technology providers that adopt our security culture and provide high levels of service compliance.
- Providing a secure and reliable service for our clients, complying with all applicable legal frameworks to protect the privacy and personal data of all users of our services, the security requirements of our clients, and best practices in the field.

This commitment is assumed by all of us at Bomchil as part of our individual and collective performance.
